Dear parents, Dear legal guardians!

Welcome to the district of Warendorf.

All children between the ages of 6 and 18 must go to school in Germany. This letter will let you know everything that needs to be considered during this process.

It starts as follows

1. You will have received an invitation letter from the Municipal Integration Centre. In it, you will find an appointment for a consultation.

2. Please go with your child to this appointment. Bring all passports and (if possible) your registration certificate. If you have school certificates for your child, please also take these with you.

3. If possible, please come with someone who already speaks some German. The employees of the Municipal Integration Centre will also try to find a translator.

Inside the Municipal Integration Centre

4. The employees will want to know when your child was born, what languages he/she speaks and how long he/she has already been going to school. They will also ask if your child can already speak German or not.

In Warendorf there are classes where you can learn German extremely quickly. You will learn all about these classes and the schools during the consultation.

5. The Municipal Integration Centre will then send the information about your child to the school.

After the consultation

6. In the meantime, you will receive an appointment for the public health department.

This is important, because every child must be examined before going to school. The Municipal Integration Centre will assist you in arranging the appointment.

7. The Municipal Integration Centre of the district of Warendorf will let you know which school your child will go to. Now he/she can go to school.

We wish you good luck!
